THE MUSCLE DANCE IS STELLAR ATTRACTION

Risque Performances Draw Big
Crowds. Board of Censors
Passes Up "Hootchy".

The Moose carnival which has been in full swing since last Monday will close tonight when the Aiken shows will pull up their tents and make for pastures new. With the exception of Wednesday night, when rain prevented the different features of the organization from operating, the carnival has been in full swing nightly and has been a great drawing card. That some of the shows are decidedly risqué is not putting it mildly. In fact, the exhibitions of the muscle dance given in a couple of tents are acknowledged by old-timers to be even worse or more suggestive than those put on at the Chicago World's fair, when the authorities were compelled to close up many of such exhibitions. These have been, par excellence, the big drawing features of the carnival and how they have escaped the official city board of censors is a wonder to many people of Mishawaka. These estimable gentlemen attended the carnival in a body Monday night and they visited the muscle dancers' tent and it is said, they enjoyed the performance immensely. In any case, the "boys" are well pleased that they have not interfered with the stellar attractions of the show field and are hearing encomiums on the heads of the civic fathers who comprise the local board of censors.

COYOTTE KILLS MANY CHICKENS WEDNESDAY

A coyote belonging to August DeMeester, which has been causing considerable excitement on S. Wells st., in the vicinity of DeMeester's home, was shot and killed Friday afternoon by its owner.

Mr. DeMeester decided to get rid of the animal as during the past few days he has been compelled to pay in the neighborhood of \$20 to various residents near his own for chickens the coyote killed.

At the residence next to his own sometime Wednesday night the animal killed 25 chickens. It made its escape from the cage in which it was kept and secured the chickens by climbing a tree. The chickens were found to have been buried in various places about the property. In some cases the birds had not been entirely buried and the animal had eaten away the legs and exposed parts to conceal the hiding places.

The coyote was purchased several weeks ago from a place near Colorado Springs.

TRAFFIC CONGESTION CAUSES ACCIDENTS

Since the advent of the jitney busses into Mishawaka the traffic at the corner of Lincoln highway and Main st. is at certain times of the day and night much congested and several narrow escapes have been reported, caused by these vehicles making the quick turn at this busy corner. Thursday night a well-known lady was run into by a Ford car while attempting a crossing at the Mishawaka Trust & Savings bank. Her dress was torn and her arm lacerated and she suffered severely from the shock. Another woman narrowly escaped being knocked down at the same place during the evening. In a communication to The News-Times, the former lady asks why a policeman is not stationed at this corner during these busy night hours. She supposes, however, that it is on account of their all being busy taking in the carnival or being otherwise engaged.

SAVE TROOPS AGAINST FORTS, ORDERS KAISER

(CONTINUED FROM PAGE ONE)

Grand Duke Nicholas are retreating in Poland.

The main Russian forces at Kovno have already withdrawn, small forces being left to protect the fortress and held back the Germans on the Niemen as long as possible. The inhabitants of Grodno, Bilestok, Belsk and Brest-Litovsk are being notified to leave those cities and withdraw into the interior.

It was estimated today that the refugees withdrawing into the interior of Russia from the groves and towns which the Germans have captured are of approaching number more than 1,500,000. They are being assisted in every possible way by the government.

The influx of the steadily increasing streams of refugees is causing no panic in the interior. The Russians accept the situation without alarm because of the fact that it is expected the main Russian armies have escaped the German trap and that only time for reorganization and the manufacture of munitions is necessary to make the troops into the greatest fighting machine in Europe.

LONDON, Aug. 14.—While the German campaign to make rapid progress east of Warsaw, their flanking movements in the Baltic provinces and southern Poland are meeting with stubborn resistance and in places they have been forced to give ground.

The importance attached by Berlin to the operations in the northern provinces is indicated by the fact that Marshal von Hindenburg himself is in direct command. The German drive on Riga has struck an iron defense and has recoiled across the Aa, according to an official statement issued in Petrograd tonight. The Russians claim to have forced back the Germans in the region of Jacobstadt on the Dvina and in the direction of Divinsk and Vilkomir. The statement was the first indication that the German drive in pressing so close to the Dvina as Jacobstadt, an important town.

Quick progress by Prince Leopold's army has resulted in the capture by the Germans of Siedlce and Sokolow, east of Warsaw. Sokolow is the railroad center on which the Russians fell back when they were forced to give up the Polish capital and they claim to have forced back the Germans. The occupation of Sokolow, north of Siedlce, imperils the Russian army retreating from the Bzura, along which they held the Germans for some days after the fall of Warsaw. A German force already has occupied Busk, north of Sokolow, and the two forces are advancing to meet each other and close the last path of escape to the Russians. The number of the czar's troops which face the danger of being surrounded are variously estimated at from 30,000 to 100,000 men.

He alleged that Tyner, when as is required by law, made affidavit to the debts of a business from which he was retiring, left out certain debts. The creditors of Tyner through Romine, demand his arrest. Tyner pleaded not guilty and the case was continued until Aug. 21. Bond was fixed at \$50.

CITIZENS IN MEXICO ARE TO PLAY A PART

(CONTINUED FROM PAGE ONE)

tered along that part of the country. To Monterey and points near there, where telegraph wires are working, the message went over the roads farthest south and throughout the interior, three messengers were sent by courier. In some places couriers on mules carried the statement.

Urgent Appeal.

The appeal was prepared by Sec'y of State Lansing and the diplomatic representatives of Argentina, Brazil, Chile, Bolivia, Uruguay and Guatemala and approved by Pres't Wilson. From the best information obtainable it sets forth that conditions in Mexico, having continued over a period of several years without prospect of early abatement, warrant the United States and sister republics in making an urgent appeal that the various factions lay down their arms and endeavor, by other means, to restore peace.

The state department has reason to believe that Villa, Zapata and many of the governors of states, military commanders and prominent citizens will agree to the plan proposed. Present indications, however, are to the effect that Carranza will reject it.

Contains No Threat.

It is not believed that the appeal contains any threat of action in case the efforts to induce Carranza to change his position meet with failure, but it is well understood in official circles that the United States in such contingency contemplates the establishment of an embargo on arms and ammunition for the constitutionalists. There is a strong possibility also that the United States, eliminating Carranza from consideration, will endeavor to bring about a convention of the other leaders. The provisional president set up by such convention, it is understood, would be recognized and would be permitted to receive arms and ammunition without restriction.

The efforts of some administration officials to create the impression that Carranza will yield to the Pan-American plan for peace in Mexico, received a setback when the state department reluctantly admitted that there is not a word in any of the dispatches received so far by this government from its agents in Mexico to bear out such a suggestion.

Attitude Indicated.

Taken in connection with Carranza's refusal to permit his representatives in Washington to confer with officials of the Villa agency, this admission is accepted as indicating definitely and finally Carranza's attitude of opposition.

The opinion expressed by many officials here on the developments of the past 48 hours is that no substantial progress has been made toward the pacification of Mexico, and that the general situation is practically the same as it was two years ago.

The state department had notice Friday for the first time of the official attitude of Gen. Villa. His secretary of state, Diaz Lombardo, telegraphed the Villa agency here today the terms on which Villa would participate in the conference.

It appears that if the conservative element should dominate the convention neither Carranza nor Villa would abide by the result. It has been understood from Sec'y Lansing, however, that the Clematis would not be taken into account in the new appeal. On the other hand, it has been stated as the opinion of the state department that the revolution was successful when the Madero government took charge.

See No Success.

The attitude of Carranza and the apparent probability that the proposed peace party, if it materializes, will not end successfully, are the basis for the growing belief that the present plan will not advance the hopes of peace for Mexico. It is pointed out that the United States could have recognized at any time within the past two years any of the prominent leaders, placing the moral and active support of the United States behind him and proclaimed an embargo against his enemies.

EL PASO, Texas, Aug. 14.—General Carranza's reply to General Villa's proposal of an armistice for discussion of a compromise by the Mexican factions was an order for an assault on Torreón. Reports received at Juarez today state that the Carranzistas have begun their attack on Villa's defenses at Torreón. Villa is expected to leave for the south immediately though he claims that his forces at Torreón are strong enough to repel the enemy. Since his arrival at the border he has sent to Torreón great quantities of ammunition.

Suit to quiet title to certain farm property has been filed in the circuit court by Andrew J. Hieckel and Chas. F. Holmes against Garrett Denniston and others.

HOLD PAWN BROKER.

CHICAGO, Aug. 14.—Julius Friedlander, a pawn broker, was held today by the police on a charge of receiving stolen property in connection with the \$200,000 Wells Fargo & Co. robbery. This makes his seventh arrest in the case.

SCHOOL DETAILS TO BE TAKEN CARE OF

Buildings Are Ready for Opening of Terms, Says Supt. Montgomery.

In a resume of the improvements made in the local schools during the summer, Supt. L. J. Montgomery declared Saturday morning that every detail in the schools liable to give the least difficulty this winter, has been taken care of.

The Franklin and Oliver schools received a fresh coat of paint on the outside and interiors were tiled. The corridors upstairs and downstairs in the Studebaker have likewise been tiled. The double portable a Division st. between Olive and Phillips, has been completed. This portable is to be used for primary grades. Another double portable on Sample st. has been constructed, which will contain a kindergarten room and first grade room. There are 10 portables in the city five of which are located at Sample st. The first grade room of the Sample st. portable is to be equipped with desks and chairs made by the vocational department of the city. This is done that the floor may be utilized for games.

Throughout the grade buildings there has been a general cleaning. All desks have been varnished and the boilers in all the buildings have been inspected and reported in good condition.

The printing department, which has been running through the summer, closed Saturday for two weeks. The department has just completed the printing of the text book used in mathematics. The book contains about 80 pages. Many reports used by teachers and principals have been printed at the vocational shop.

During the summer there have been 10 boys in the department learning the printing trade. The course was for work most of the summer as well as the regular school time.

ORGANIZE WILSON CLUB IN THE SECOND WARD

New Organization Will Have Outing Sunday—Hozinski Is President and Czienick, Secretary.

A second ward Wilson club was organized Friday night when 49 of the staunch Democrats of the West end met in the old Democratic headquarters on Kinwood st. The new organization was elected and a committee, consisting of Steve Dwaracki, Joe Czienick, Frank Hozinski and John Petrowski, was appointed to arrange for an outing to be held at Chain lakes Sunday, Aug. 15.

Hozinski, Czienick and Dwaracki were the ones who started the new organization. Hozinski was elected president; Czienick, secretary; Dwaracki, treasurer, and Joe Jowarski, marshal.

The outing at Chain lakes will be an all-day affair and an interesting program of sports has been arranged. Among other features, there will be a ball game between the married men and the single men. There will also be a tug-of-war between the married men and the single men; a 40-yard race for boys and a horseshoe contest for the young men. An English Bull terrier valued at \$130 has been donated as the prize in the boys' race.

AUTO ON TOP OF STORE

Machine Is Placed on Exhibition on Roof.

It is unusual to see an automobile picked up and swung on to the top of a building, but visitors at Michigan and Jefferson sts. Saturday morning witnessed such a spectacle. An automobile which is to be given away by George F. Hull was picked up and placed in a glass compartment built on the roof of Mr. Hull's store.

The case is so arranged that it can be seen from a great distance and from four directions. It is lighted by night with huge electric lights and on the display glass is transparent lettering.

The Indiana and Michigan Electric company did the hoisting and the auto was safely stowed away in the case. The machine is a five-passenger Maxwell and is being used for advertising purposes.

Eversole Says He Had His

case from different angles, and it was not until they met in Elkhart that the one knee of the other activity. Deputy Sheriff John P. Cully made the arrest, after Kuespert had passed Eversole up, and has asked men at Bristol for information concerning the man. Eversole was almost in reach of Kuespert when the latter questioned a group of men.

Eversole Saturday morning refused to talk of his son, S. Newton Eversole, who is being held at Goshen pending further investigation into his connection with the crime. It was held by the Goshen sheriff that the son was supposed to have burned a canvas tent which was used in the murder of the Macklin girl left the home of her aunt, Mrs. Charles C. Miller, 744 Harrison av., on the night of Aug. 19.

Bailey claimed that there was no evidence to hold the son, and that he would probably be released Monday or Tuesday. The son was arrested in July, 1912, charged with child desertion, but the case was settled out of court. The son's wife later procured a divorce.

Chief of Police Kerr refused to talk of the case Saturday morning, as did Detective Chief Kuespert and Detective Serg't. Barnhart. Kuespert is out of the city, supposedly running down clues.

It is known that investigations are proceeding on the various places Eversole has lived and visited since his disappearance subsequent to the discovery of the crime. Private detectives of the Indiana state agency are aiding the local detective department in their investigation, and the latter concern is said to have started a search for evidence about his home at Bristol, Ind.

Transfer Case.

The transfer of the case from Justice of the Peace Wypyski's court to the superior court was the principal thing accomplished Friday in the handling of the case against Eversole. An affidavit was filed in the superior court late Friday afternoon, signed by Ira Macklin, father of the murdered girl, charging Eversole with murder in the first degree.

This will enable Deputy Prosecutor Schwartz to do away with a preliminary hearing, and to place the evidence before the grand jury at the September sitting, which will begin early in the month. It is expected that the grand jury will return an indictment early, and that the trial will begin during September.

Meanwhile, Eversole will remain in solitary confinement at the jail, as bonds have been refused him. Effort on the part of his attorneys to secure his release have proved futile.

It is understood that the police department is looking for nephew of Eversole, who is supposed to live in Mishawaka, and who made statement Wednesday night that led to the opinion that he knows some vital fact about the case.

Look for Nephew.

At 7 o'clock Wednesday evening the nephew, whose name is unknown to the authorities, told an acquaintance that he knew of the nephew of Eversole who had been arrested for the murder of the Macklin girl, and that it was his opinion that Eversole was quite capable of such a crime. As this was at least 18 hours in advance of Eversole's actual arrest, it is thought that the nephew might be able to throw some light on the mystery.

The young man told of his uncle's attempt to escape from the jail, by shaving off his beard, and of his former experiences with young girls, some of which, it is alleged, caused Eversole considerable trouble in his church and home life.
